

AUTOCAD DRAFTSPERSON REQUIRED!!

At Empire Kitchen & Bath, we design, distribute and manufacture industry leading custom cabinetry. From kitchen and bathrooms to custom closets and mudrooms, clients can add cabinetry to every room in their home.

Our team is passionate about providing exceptional customer service and beautiful designs. We focus on collaboration and creativity, so if you love details and working as part of a team, you'll be a great fit with us!

We are looking for a creative and technically skilled draftsman. You would be responsible for working with our design team to turn design concepts into accurate production drawings. You will manage the order process and provide pricing for cabinetry designs.

Responsibilities

- Collaborate with designers to draft kitchens, bathrooms and other cabinetry areas to designer's / customers' design concepts
- Create design drawings in AutoCAD
- Research and integrate specifications for appliances, fireplaces and other accessories into designs
- Visit job sites to measure for size and design fit
- Update drawings as required
- Provide pricing for cabinetry
- Work with production team to ensure workability and clarity of designs
- Lead the confirmation and submission process to ensure accuracy and submit cabinetry for production
- Distribute up to date drawings and specifications to our installation and construction partners

Qualifications

- Design/drafting education
- 2 years AutoCAD experience in working environment
- Excellent communication skills
- Attention to detail is *essential*

If you are interested in learning more about this opportunity, please submit your resume, portfolio and your salary expectations for our consideration to careers@empirekitchenandbath.com. We thank all candidates for applying however only candidates selected for an interview will be contacted.
